Earth Story

THE ELEMENTS ● ● ● ● ●

A solo exhibition by
Bharti Prajapati

Her new collections of oils while staying true to character, shows her stature as an artist, whose colour palette is bright, bold and beautiful.

This collection of paintings narrates the intrinsic bond between the **Five Elements, the Panch Tattva**, comprising Earth, Water, Fire, Air and Space, with all living creatures.

Bharti Prajapati

Part of gallery g's Artists' Initiative Program (AIP) early on, Bharti Prajapati has showcased her works through us over the years. Women and rural theme has been a constant in Prajapati's paintings. The people, the lifestyle, the contrasts of the arid landscape with the vivid colours of her palette are breathtaking. Rustic backdrops and earthy tones in her paintings get combined with ethnic emotions, bringing about a subtle, yet distinct character in her expression.

In line with some of her previous collections titled One Tribe, Mother Earth, Colours of Sand, Desert Song, Prajapati's **Earth Story** – The Elements – revolves around *Panch Tattva* or the five elements that are closely connected to us and the nature. This collection is a collage of colours and forms constantly visible around us.
